Strategy Insight:

Focus on increasing likes to boost comments.

- Use polls, questions, and opinion pieces to spark comments.
- Respond to comments, encourage further engagement.
- Add CTAs like *“Liked this? Share it with your network!”*.

Hashtag insights based on followers & competitors data *

Hashtag Type	Purpose	Sample	Recommendation

Conclusion #1 about posts

- **The most engaging posts** are those that appeal to some emotional, vivid life, e.g, events, celebrations, giving speeches in events, internal life, and lifestyle photos of employers.
- Finland's market is small. Compared to Protiviti, a company with offices in the USA and Finland, their **posts written in English** have more engagement than those posted in Finnish and targeted at the Finnish audience.
- **To reach an international audience**, we need to find topics related to the issues of customers who seek Finnish law services.

Suggested Actions Based on the Analysed Data:

- **Create Comment-Driven Content:**
Post thought-provoking questions, polls, or user opinions to stimulate conversations.
- **Use Call-to-Actions (CTAs):**
Encourage users to "Like & Comment" on posts by using direct CTAs like "What do you think? Comment below!".
- **Highlight Popular Comments:**
Engage with user comments and pin or showcase the most insightful ones to drive further interaction.
- **Leverage Emotional Appeal:**
Posts that trigger emotional responses (inspiration, humor, controversy) often get both likes and comments.
- **Use consistently branded hashtags for brand recognition**, then combine with Industry Hashtags, Event-Based Hashtags, etc. depending on the post content.

2. Using website article about Sanctions Legislation Changes

 Important Sanctions Law Update for Businesses in Finland & the EU 

The Finnish government is set to implement major amendments to the Criminal Code in alignment with the EU Sanctions Crime Directive. These changes will introduce new criminal offenses related to sanctions violations and significantly impact companies operating in international trade.

 Key Changes You Need to Know:

- ✓ New offenses: Sanctions Crime, Aggravated Sanctions Crime, Negligent Sanctions Crime, and Sanctions Violation
- ✓ Stricter corporate liability – fines up to €40 million or 5% of turnover
- ✓ Tougher enforcement on export/import bans, hidden transactions, and financial violations
- ✓ Whistleblower protection for reporting sanctions violations

 Deadline: May 20, 2025 – Ensure your compliance before the new laws take effect!

 What does this mean for businesses?

These changes highlight the increasing complexity of sanctions compliance. Failing to comply can lead to severe penalties, reputational risks, and financial losses. Companies must review their trade operations, update risk assessments, and ensure strict internal controls. [Read more in our exclusive article at lkos.fi](#)
